(Replaces VRRC 9003 in its entirety)

Effective July 1, 2008, the Vandalia Railroad Co. (VRRC) 9003 FSC will be revised with respect to exempt traffic, as follows. This revised surcharge program will apply to all local and joint-line traffic moving on all public and private price authorities that reference the 9003 series tariff.

The fuel surcharge shall apply on the following traffic:

- 1) All carload traffic, as noted, originating on the VRRC.
- 2) Carload traffic, as noted, originating at stations on carriers other than VRRC, received at interchange points by VRRC, and handled beyond such interchange points via VRRC under AAR Accounting Rule 11 billing.
- 3) All carload traffic, as noted, originating at stations other than VRRC, received at interchange points by VRRC where rates are contained in VRRC pricing documents, and freight charge billing is performed by VRRC.

The foregoing surcharge will be billed to the payer of the freight charges.

FUEL SURCHARGE

The formula for determining the fuel surcharge will be based on the MONTHLY AVERAGE PRICE of West Texas Intermediate Crude Oil (WTI Average Price), an industry standard for tracking oil prices. The WTI Average price for a given calendar month is determined by adding the daily WTI prices published in the Wall Street Journal during a calendar month and dividing the result by the number of days so published.

The fuel surcharge will be 1.0% of the linehaul freight charge for every \$3 per barrel, or portion thereof, by which the WTI Average Price exceeds \$65. The following schedule provides the new Fuel surcharge within the noted WTI Average Price Ranges:

Fuel Surcharge Rates:

WTI Crude Oil (Price per barrel)	Surcharge (Percentage)
\$ 65.00 & Below	None
\$ 65.01 – 68.00	1 %
\$ 68.01 - 71.00	2%
\$ 71.01 - 74.00	3%
\$ 74.01 - 77.00	4%
\$ 77.01 - 80.00	5%
\$ 80.01 - 83.00	6%
\$ 83.01 - 86.00	7%
\$ 86.01 - 89.00	8%
\$ 89.01 - 92.00	9%
\$ 92.01 - 95.00	10%
\$ 95.01 - 98.00	11%
